

INSTRUCTIONS:

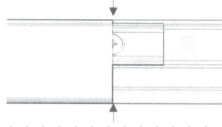

STEP 1: PREPARING

Three fixings are provided for every 1 meter of top rail. The pack consists of: Fixing clips, 35mm counter sunk screws and Masonry wall plugs. For Locator Minirail the clip and screw are one item.

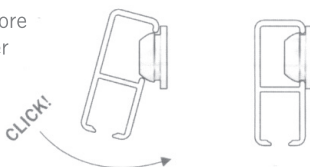

Fix the clips in a straight line on the wall every 30-40cm. Where you need to join two pieces of top rail, use the straight connector (LC/LCM sold separately). On plasterboard walls, fix directly into studs wherever possible.

NOTE: Make sure the LC/LCM is centred to the join.

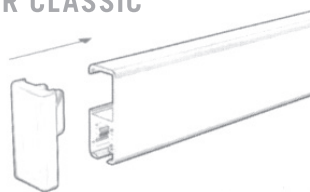

STEP 2: POSITIONING

LC and LCM can be inserted to the rail before clicking into position. Place the top rail over the clips and/or LC/LCM and click it firmly into position. The top rail can be cut to length using a standard hacksaw, carefully remove burrs with a fine file.

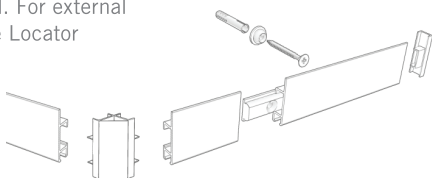

STEP 3.1: FINISHING - LOCATOR CLASSIC

On internal corners the Locator Classic top rail can be butted against another top rail or wall, for external corners and exposed ends use Locator End Caps, (LEW/LES).

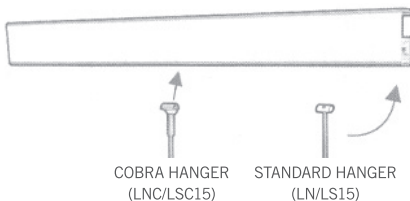

STEP 3.2: FINISHING - LOCATOR MINIRAIL / EXTRA

On internal corners the Locator Minirail / Extra top rail can be butted against another top rail or wall. For external corners and exposed ends use Locator Minirail / Extra End Caps, (LEWM/LESM / LEWX/LESX).

STEP 4: HANGING

Insert hangers into the top rail, slide the hooks onto the hangers and hang the picture.

ACCESSORIES

Positioning of D-rings/Strap hangers (FD/FH) in most cases should be mounted 70-80mm from the top of the picture frame on to the sides of the frame, this will help the picture to sit flat against the wall. D-rings are sold in packs of 10 and Strap hangers are sold in pairs.

Acid free self adhesive bumper dots (BD) can be added to the bottom corners of the picture frame to prevent marking the wall and are sold in packs of 12.

These items can be found on the 'Accessories' page of our website at www.picturehangingsystems.com.au

For any further questions regarding our products or their installation, please don't hesitate to contact us (see overleaf). Thank you for choosing Picture Hanging Systems.
